MODERN SLAVERY STATEMENT

TaylorMade Landscape Contractors Ltd is committed to driving out acts of modern day slavery from within its own line of business and that from within its supply chains. The company acknowledges responsibility to the Modern Day Slavery act 2015 and will ensure transparency within the organisation and with the suppliers of goods and services to the organisation.

The organisational structure of the business is a family owned enterprise that provides all services across the landscaping and grounds maintenance fields. Within the supply of new build landscaping there are relationships with external business for the sourcing of certain materials throughout the year (imported plants and shrubs etc.) these as well of the suppliers of services make up the supply chain within TaylorMade Landscape Contracts Ltd.

As part of the companies due diligence process into slavery and human trafficking the supplier approval process will incorporate a review of the controls undertaken by the supplier. Generally all of our imported materials come from within the EU but should we ever require to import from outside of the EU the level of management of control required for these sources would be continually monitored as sources from outside of the UK and EU are potentially more at risk for slavery/human trafficking issues.

The company will not support or deal with any business knowingly involved in slavery or human trafficking.

The company directors and senior management shall take the responsibility for implementing this policy statement and its objectives and shall provide adequate resources (training etc.) and investment to ensure that slavery and human trafficking is not taking place within the organisations within its supply chain.

This policy statement will be reviewed annually and available on request.
